Health Centers, Inc.*

Patient Service Policy and Procedure

Appointed Patients
Making and Keeping Medical and Dental
Appointments will help reduce your visit wait time.

Late patients
If you are more than **30 minutes** late for your
appointment, you have the option of waiting or
rescheduling your appointment.

Walk-n Patients
Patients who do not have an appointment will be
serviced by the provider assigned to provide walk-in
services. Visits with your primary medical or dental
provider will require an appointment.

Your Health is Our Priority!
